Sub: Seeking your permission and endorsement for an interactive session (seminar) with students of Sanketika Engineering College (SEC) and other foundations under the honorable Alwar Das group of institutions

Dear Sir,

It gives me immense pleasure to meet you virtually and I look forward to meeting you in person soon. I write this letter to you seeking your permission and your endorsement for our start-up organization, Achiever Overseas Educational Consulting. As a graduate yourself, who has completed his master's degree in the United States, it is needless to explain the opportunities and the quality of education the United States has to offer. We would be delighted to collaborate with your organization and expand the horizon of opportunities to every aspiring student who could be a role model for the future batches to look up to.

Having said that we would like to do a presentation with your students on the 13th of November from 10 AM to 12:30 PM (or a similar slot that works for you) and help them understand who we are, what we stand for, how we are different from other consulting firms and finally what value we bring to the table.

We would like to get your approval for the same and your endorsement to work with all other institutions under the honorable Alwar Das group of institutions. We are absolutely excited about this journey and cannot wait to get started.

Sincerely

Venkata Charan Kantumuchu
